EXPERIENCE

Flutter Engineering Team Lead, Property Radar, Truckee, CA (remote), September 2025 – https://propertyradar.com

As Lead Developer, I architect and develop a scalable web application using Flutter, managing multiple solutions across a shared codebase. I design and implement AI-driven features, evaluating and recommending the right tools and integrations for each use case. I lead the refactoring of legacy code into clean, modular, maintainable solutions with clear separation of concerns.
